---

Hi, I am a Junior Web Developer trying to get into a work environment where I can brush up my development skills. Currently I am working on mastering my frontend developing skills using React

---

## Education

Degree in Bachelor of Computer Application from  
St. Mary's Collage Sulthan Bathery under Calicut University (2017-2020)

Django and React.js internship at Rights solutions Kochi ( February-May 2021)

---

## Works

**[nocodes.herokuapp.com](https://nocodes.herokuapp.com)**: A simple blog application which i built for myself using django, Bootstrap4 , jQuery and ajax. I created this web app to share the little knowldege i have in different technologies.

[github.com/Akashno/nocodes-V2](https://github.com/Akashno/nocodes-V2)

**Social Media app** : SkillJag a community where people can share their project's ideas thoughts and opportunity. I worked building the frontend of this application where i used React. I got a little experience in React , React hooks, React routing and working with api.
